HOW TO GET ALL THE BLUE ORBS

Secret Mission 1: Critical Hit

After defeating Phantom in Mission 3, return to the broken bridge and jump down. Shoot

the Sin in the face with the shotgun to make her drop the scissors. Get as close as possible and shoot her in the face again. It must be a critical hit to complete the mission.

Secret Mission 2: Phantom Baby

At the beginning of Mission 4, go through the Cathedral doors. Use Holy Water to kill the 100 babies within the 30-second time limit.

Secret Mission 3: Phantom Baby 2

After completing Secret Mission 2, go to the Time Statue room (the starting point of Mission 4). Use your feet to stomp 100 babies within the 30-second time limit.

Secret Mission 4: Three Beasts

After defeating Shadow in Mission 4, go to the arena beneath the room containing the aeroplane. Defeat the Shadows by being quick on your feet and attacking whenever you can – which is obviously harder than it sounds. The fact that the auto-aim often focuses on the wrong targets doesn't make this tough mission any easier.

Secret Mission 5: One-Eyed Demon

During Mission 7, go to the Pipe Room (where you found the Old Key during Mission 6). Jump on the pipes and keep jumping so the two Cyclops can't hit you, but instead hit each other. Continue to do this until one Cyclops has killed the other.

Secret Mission 6: A Bunch Of Ghosts

During Mission 11, go to the Garden Courtyard (near where Mission 10 ended). Jump, wall jump and jump on the heads of the Sin Scissors until you reach the piece of Blue Orb.

Secret Mission 7: Water Prison

After Mission 13, go to the Captain's Room on the Ghost Ship and check his skeleton. Use the Needle Gun to defeat the eight Blades.

Secret Mission 8: Treasure Guarded By The Death God

During Mission 15, go to the Spike Room (the starting point of Mission 14) and check the picture on the wall. If you've got it, use Nightmare Beta to defeat the three Shadows. Otherwise, use any means necessary.

Secret Mission 9: Shadows In The Dark

After defeating Nightmare in Mission 16, go to the room containing the aeroplane. Find and kill four Shadows. Two of them are in the room containing the aeroplane, one is in the Hall and the fourth is in the Bridge Room.

Secret Mission 10: A Lonely Staircase

After defeating Nightmare in Mission 16, go to the Coliseum. Jump up the stairs to reach the piece of Blue Orb.

Secret Mission 11: Blue Stone In The Sky

It's a good idea to save before attempting this difficult Secret Mission. During Mission 17, go to the broken bridge. To activate the Secret Mission jump from the end of the bridge, back to the door end without falling in the water. To do this, jump on the first platform, Air Raid to the last platform and jump to safety. Avoid the Death Scythes' attacks and use the jump-pools to reach the piece of Blue Orb.

Secret Mission 12: Hidden Bracelet

During Mission 21, check the wall opposite the Time Statue and enter the hidden room. Cross the long stretch of road and pick up the piece of Blue Orb. Follow the path to a large room containing a fireless dragon. Defeat the dragon by hitting it on the head with one of your swords. Once defeated, take care of the Frosts before jumping to the Time Bracelet.

Get More Orbs

Kill all the monsters in a mission, save the game and then reset by pressing . Now go back, start the mission again and re-kill all the monsters. Keep doing this until you've got loads of Orbs. It takes a while, so do it on a mission where there are lots of monsters.

When the game eventually loads, a new mini-game will have replaced the mosquito madness in which two players battle it out to ram each other off a cliff using bicycles.

You can push **ⓧ** to move forward, **ⓧ** to jump and, when your power meter is full, you can also press **ⓧ** to unleash a super charge attack. Another way to access this game is to hold **ⓧ** and continuously rotate the right analogue stick clockwise at the title screen, but however you access it, you'll wish you hadn't! Fun for approximately one minute and that's all really - although the same could also be said of the main *Mr Moskeeto* game.

IF ONLY LIFE HAD A VERY EASY MODE...

Cheating on a loving partner? That's wrong. Cheating on a game that's so hard it makes your hair curl? Fine as far as we're concerned. But sadly we can't be everywhere at once, showing you how to cheat your way to an easier life. Physics is cruel like that. What we can do, however, is continue to put together the biggest and best PS2 cheats book on the planet. Kind of like the bible. But with more tips.

Which is where you come in. We want to include your hottest tips in the next volume of the papery miracle which you hold in your hands right now. So if you're the kind of player who chews up *Full Spectrum Warrior* in a single setting and then completes *Mercenaries* again, just for kicks, we want to hear from you. Send us your cheats, skips, passwords and tactics – the best ones will appear in the next book. Come on then, kid. Crack on. Those games aren't going to complete themselves...
